

REBI evo

Rotary medical sealer for the sealing of pouches and reels conforming to DIN 58953-7:2010 standard.

The most compact of the rotary medical sealers, unique in its category for its high performance, it offers many important functions.

Stainless steel cover.

Stand by function stops the machine when not in use, automatically starting when a pouch is introduced by an in-feed photocell, automatic adjustment of the sealing pressure allowing for varying material thickness, flex-strip keyboard, digital electronic temperature control with 2 lines LCD display, placed on the upper side of the machine for a simple and clear reading.

The solution that matches advantages of rotary sealer with reduced cost or limited space.

Accessories: Front support tray, roll holder complete with cutting device
