Versions:

- with gravity roller and support
- only on support
- only sealing head

Accessories upon request:

ink jet coding system, loading / unloading free rolls, manual air ejection system.

Technical data

Materials: all heat sealable materials, carton headers

Bags: max 10 kg weight; max 560 mm height*

Sealing process: rotary constant heat

Sealing kind on request: flat, crimped, knurled

Sealing speed: 3,5-12 mt/min, variable through inverter

Speed adjustment: through keypad on command panel

Max sealing height 14 mm

Min. distance seal/prod. mm 37

Free edge over sealing mm 90

Adjustable sealing pressure

Temperature 20° ÷ 230° C (+/- 1%)

RO 3001

Thermoregulator: electronic with digital display

In-feed Right / left; left / right upon request

PTFE belts Double ring mm 20 height

Transport belts: indented

Built-in conveyor mm 1300 x 190

Electronic temperature controller with digital display

Power supply 230 V – 50/60 Hz - single phase

Average absorption 650 W

Acoustic emission level: under 70 dB(A)

Dimensions (only machine) mm 1258 x 968 x 564

Weight: kg 115

Construction: CEI EN 60204-1,CE
